RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

This communication is in response to the Restriction Requirement mailed March 26, 2002 (Paper No. 6), within the one month non-extension period, thus the response is a timely filing.

The Examiner has indicated in the Action that pending claims 33-60, 85-91, 100-103, and 114-140 comprise four groups of inventions for purposes of examination. The Examiner further indicated that specific species must also be elected to which the claims would be restricted in the event that a generic claim is not allowable. The response must also identify the claims readable on the elected species, including any claims subsequently added.
